OBJECTIVE

To contribute to the design, implementation and management of secure, scalable, highly available and cost-effective cloud solutions by applying my AWS expertise and experience, IT support background and hands on cloud engineering experience. Seeking opportunities to deliver reliable cloud infrastructure, automate deployments, strengthen security and support business objectives through effective application of AWS technologies and Infrastructure as Code.

EXPERIENCE

- AWS CLOUD ENGINEER — Remote 2025 - 2026
  - Hardened identity and access management using AWS IAM, AWS Organizations, service control policies, and AWS Key Management Service (KMS).
  - Applied AWS IAM security best practices to manage permissions and strengthen access control using AWS IAM, AWS Organisations, KMS and service control policies
  - Worked with AWS compute, storage, networking, Serverless, monitoring and security services.
  - Implemented infrastructure as code using CloudFormation, Terraform and Docker
  - Applied cloud architectural principles including scalability, high availability, security and cost efficiency.
  - Used AWS CLI and cloud based development environments to provision and troubleshoot AWS resources.

- NSCDC 2019 - 2026
  IT SUPPORT / SYSTEMS ADMIN
  - Provided technical support for staff, systems and the IT infrastructure.
  - Diagnosed and resolved hardware, software, network and system related issues with accuracy.
  - Supported reliable day to day operation of IT systems keeping the company running with 90% efficiency.
  - Maintained technical documentation and followed up structured troubleshooting and support processes.

PROJECTS

- AWS CV AND PORTFOLIO WEBSITE (S3 | Cloudfront | Route 53 | Cloudformation)
  - Designed a static portfolio website using Amazon S3 and Cloudfront
  - Explored CloudFront for content delivery and HTTPS.
  - Used infrastructure automation concepts with AWS CloudFormation.

- SERVERLESS CONTACT FORM (API Gateway | Lambda | DynamoDB | SNS | I AM)
  - Designed and implemented a serverless contact form using API Gateway, AWS Lambda, DynamoDB and Amazon SNS.
  - Configured IAM permissions and integrated notification workflows.
  - Troubleshot API and Lambda errors and verified successful end-to-end form submissions.
  - Diagnosed 502/500 failures, leading to sucessfull HTTPS 20 responses.

- CI/CD DEPLOYMENT (GitHub | CodePipeline | CodeDeploy | EC2)
  - Developed a GitHub-to-AWS deployment workflow using CodePipeline, CodeDeploy and EC2.
  - Configured deployment groups and the CodeDeploy agent.
  - Investigated deployment failures and infrastructure configuration issues.

- TERRAFORM & CLOUDFORMATION — Infrastructure as Code (Terraform | CloudFormation | S3 | AWS CLI | GitHub | GitHub Codespace)
  - Provisioned AWS S3 infrastructure with Terraform using init → plan → apply.
  - Created and updated CloudFormation S3 infrastructure; successfully managed CREATE_COMPLETE and UPDATE_COMPLETE states.
  - Used AWS CLI, Git, GitHub and Codespaces for version-controlled IaC workflows.
  - Created a professional GitHub documentation.

SKILLS

- TECHNICAL SKILLS
  - **Networking & Security**: VPC architecture, CIDR, Public/private subnets, Network ACLs, VPC Endpoints, IAM, DNS and routing, WAF, Cloudfront, Cloudtrail.
  - **Infrastructure & Devops**: CloudFormation, Terraform Git, GitHub, GitHub Codespaces, AWS CLI, Docker, CI/CD, ECS, EKS.
  - **Systems & Troubleshooting**: Linux fundamentals, EC2 troubleshooting, IAM troubleshooting, API/Lambda, Cloudwatch Monitoring
  - **Serverless/Automation**: Lambda, SNS, SQS, Stepflows, SES, Fargate, API gateway.

    - **Cost Management:** AWS Organisations / Consolidated billing, Budgets, Trusted advisor, Cost Anomaly detection.

- SOFT SKILLS
    - Problem solving and Adaptability
    - Proactivity and Communication,
    - Risk management.
    - Cost and Billing management

TRAINING/CERTIFICATIONS

- AWS Certified Solutions Architect – Associate (SAA-C03) — Amazon Web Services (2026)
- AWS Certified Cloud Practitioner (CLF-C02) — Amazon Web Services (2025)
- ALX AWS Cloud Computing Programme (2025)
- Professional AI Certifications — ALX Africa (2022)

EDUCATION

- ALX Africa 2025
  AWS Cloud Computing Certification

- UNIVERSITY OF CALABAR, NIGERIA 2015
  BSc. Genetics & Biotechnology
